

Product Fiche compliant to commission delegated regulation (EU) No 65/2014

Table with 3 columns: Title, Technical Description, and Energy Efficiency Class. Includes rows for model identification and efficiency classes (Energy consumption, Energy efficiency class).

Table with 3 columns: Title, Technical Description, and Energy Efficiency Class. Includes rows for fluid dynamic efficiency and lighting efficiency classes.

Table with 3 columns: Title, Technical Description, and Energy Efficiency Class. Includes rows for lighting efficiency class and filtration efficiency.

Table with 3 columns: Title, Technical Description, and Energy Efficiency Class. Includes rows for filtration efficiency and air flow rate at minimum speed.

Table with 3 columns: Title, Technical Description, and Energy Efficiency Class. Includes rows for air flow rate at maximum speed and sound power emissions.

Table with 3 columns: Title, Technical Description, and Energy Efficiency Class. Includes rows for sound power emissions and sound pressure levels.

Table with 3 columns: Title, Technical Description, and Energy Efficiency Class. Includes rows for sound pressure levels and power consumption.

Table with 3 columns: Title, Technical Description, and Energy Efficiency Class. Includes rows for power consumption in off and standby modes.

Additional product information compliant to commission regulation (EU) No 65/2014

Table with 3 columns: Title, Technical Description, and Energy Efficiency Class. Includes rows for time increase factor, efficiency index, and air flow rate at best efficiency point.

Table with 3 columns: Title, Technical Description, and Energy Efficiency Class. Includes rows for air flow rate at best efficiency point and nominal power of the lighting system.

Table with 3 columns: Title, Technical Description, and Energy Efficiency Class. Includes rows for nominal power of the lighting system and average illumination system.
